PROFESSIONAL SUMMARY

Senior Technical Writer and AI Automation Content Specialist with 8+ years of experience creating developer documentation, UX content, product content, and SEO-optimized digital content for enterprise software products. Experienced in creating AI skills and agents for documentation automation, content rephrasing, SEO, and content workflows. Experienced in EDA (Electronic Design Automation) documentation, API documentation, docs-as-code workflows (Git, GitHub PRs), and GenAI-powered content pipelines.

Skilled in translating complex technical concepts into clear, user-centered documentation and collaborating with Engineering, Product, Design, and DevRel teams. Experience in structured authoring using DITA and Markdown, content reuse, and documentation workflows involving Jira and wiki/knowledge-base systems.

TECHNICAL SKILLS

Developer Docs	API References, SDK Reference, Developer Guides, Tutorials, Release Notes, User Manuals, Conceptual Docs	Markup & Authoring	Markdown, DITA XML, HTML, XML, YAML, OpenAPI/Swagger
Docs as Code	Git, GitHub PR Reviews, FrameMaker Publishing Server, MkDocs, Confluence	AI & GenAI Tools	GitHub Copilot, Cursor, Claude Code, ChatGPT, Adobe Firefly
Info Architecture	Taxonomy, Navigation Design, Single Sourcing, Content Reuse, Style Guide Ownership, Terminology Management, Content Audits	API & Dev Tools	Postman, cURL, VS Code, Swagger UI, REST APIs, Jira APIs, Python (Basic)
UX & Copywriting	UX Writing, Microcopy, UI Strings, Tooltips, Error Messages, Onboarding Flows, CTA Copy, Product Copywriting, Digital Copywriting	SEO & Findability	SEO Optimization, Keyword Research, Metadata Strategy, On Page SEO, Content Architecture, Search Intent Mapping, WCAG Accessibility, Audience Analysis
Video & Media	Adobe Premiere Pro, Adobe Rush, Snagit Editor, Camtasia, Screen Recording, Script Writing	Diagramming	Microsoft Visio, draw.io, Mermaid, Lucidchart
Project Mgmt	Jira, Confluence, Agile/Scrum, Kanban, Cross Functional Collaboration, Stakeholder Management	Soft Skills	Audience Analysis, Peer Reviews, Usability Testing Support, Content Localization, Doc Versioning, Release Planning

WORK EXPERIENCE

Senior Technical Writer • Keysight Technologies • August 2026 – Present

- Create AI automation skills and agents for documentation tasks, including content generation, rephrasing, and documentation workflows.
Develop AI-assisted document automation workflows to reduce repetitive documentation tasks and improve content consistency.
- Create and maintain technical documentation for Electronic Design Automation (EDA) products, including feature documentation and release notes.
- Document ADS workflows and product updates in collaboration with engineering and subject-matter experts.
- Use Sphinx, Markdown, Git, and wiki/knowledge-base content workflows to maintain and publish structured documentation.
- Create and use skills and agents for documentation tasks such as SEO and content rephrasing, and work with Jira and wiki integrations.

Senior Technical Writer • Adobe Systems • June 2022 – August 2026

- Authored end to end developer documentation including REST API references, authentication flows, SDK guides, tutorials, and release notes using OpenAPI/Swagger, Postman, and Markdown.
- Wrote UX microcopy, UI strings, tooltips, error messages, and onboarding flow copy for Adobe product interfaces, collaborating directly with Product and Design teams to ensure voice and tone consistency.
- Planned and executed content audits across 200+ documentation pages, improving findability, reducing content duplication, and driving measurable gains in page view lift and developer adoption.
- Optimized SEO metadata, taxonomy, and content structure across the documentation site, increasing organic search visibility and content adoption across global developer audiences.
- Built and maintained a docs as code publishing pipeline using Git, GitHub PRs, and FrameMaker Publishing Server, reducing manual publishing effort by 25% and accelerating release cycles.

- Developed a Python based Scrum automation tool integrating Jira APIs to streamline review cycles, track documentation debt, and reduce manual sprint reporting overhead.
- Built a VS Code extension for AI powered SEO keyword generation using Python and GenAI tools (GitHub Copilot, Cursor, Claude Code), adopted across the documentation team.
- Produced video scripts, screen recordings, and multimedia documentation assets using Adobe Premiere Pro and Snagit Editor for product onboarding and developer enablement.

Content Technical Writer • National Informatics Centre • March 2020 – June 2022

- Authored Software Requirement Specifications (SRS), functional specifications, system architecture docs, data flow diagrams, and user manuals for national e governance platforms including Jal Jeevan Mission and Swachh Bharat Mission.
- Documented REST API integration patterns and data flows; performed validation testing to verify documentation accuracy against live systems.
- Collaborated with engineering and program management stakeholders to establish documentation standards and content review processes across multi team projects.

Technical Content Writer • AMC Private Limited • February 2018 – February 2020

- Authored and published technical programming books on Python, Visual Basic .NET, and Android development with structured learning paths, tutorials, and verified code examples targeting developer audiences.
- Applied structured authoring and single sourcing principles to deliver optimized content for both print and digital publishing formats, ensuring consistency and reuse across product lines.

KEY ACHIEVEMENTS & IMPACT

- Created AI agents to generate content drafts from Jira, optimize and rephrase content, and publish updates to wiki/knowledge-base systems.
- Reduced documentation publishing time by 25% at Adobe through Git based automation and FrameMaker Publishing Server pipeline, directly improving time to release for developer content.
- Delivered SEO optimized developer documentation across 200+ pages with measurable search visibility improvements, aligning with content quality standards followed at Google, Microsoft, and Stripe.
- Wrote UX microcopy and product interface copy for Adobe tools, contributing to improved onboarding completion rates and reduced user support tickets.
- Built AI assisted tooling (VS Code extension and Python automation) adopted by the documentation team, demonstrating the ability to innovate at the intersection of GenAI and content strategy.

EDUCATION

Degree / Qualification	Institution	Year	Score
B.Tech, Information Technology	Krishna Institute of Engineering and Technology	2006	74.6%
Senior Secondary (Class 12)	Sachdeva Public School	2000	65%
Secondary (Class 10)	Sachdeva Public School	1998	69.5%
